To Whom It May Concern

Re: Compatible Panels for Hochiki Australia's AS approved Analogue Sensors

Hochiki Australia's AS approved **Analogue Sensors** (excluding HRE protocol sensors and Conventional detectors) are compatible with the following fire control panels.

- Manufacturer Kidde Australia Pty Ltd / Model : NFP1&2, Phoenix, FIRENET
- Manufacturer Kentec Electronics Ltd / Model : Syncro AS, Taktis

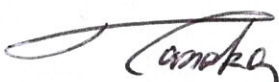

The above-mentioned panels have been tested and approved for use with Hochiki Australia's AS approved Analogue Sensors.

Hochiki Australia does not warrant the proper operation of any AS approved Analogue Sensor that has been connected to a fire control panel which has not been tested and approved by Hochiki Australia for use with our AS approved Analogue Sensors.

Hochiki Australia will not take responsibility for any loss or damage caused by the connection or use of AS approved Analogue Sensors with panels that have not been tested and approved by it.

Please contact us for further information on Hochiki Australia's AS approved Analogue Sensors and compatibility with fire control panels.

Yours faithfully
